1. PREAMBLE

- 1.1 A virement represents a flexible mechanism to effect budgetary amendments within a municipal financial year.
- 1.2 Changing circumstances and priorities during a financial period may give rise to a need for virement (transfer) of funds within or between approved Votes, as defined in the Municipal Finance Management Act 56 of 2003 (MFMA). The treatment of such instances may however be dependent on whether an Adjustments Budget is required or not.
- 1.3 The MFMA and the Municipal Budget and Reporting Regulations, 2009 seek to move Municipalities away from the traditional approach of appropriating/ approving budgets by line item. The aim is to give the Heads of Municipal Departments and programmes greater flexibility in managing their budgets. In furtherance of this objective, each Municipality must put in place a Council approved Virement Policy, which should provide clear guidance to managers on when they may shift funds between items, projects, programmes and votes.

2. INTRODUCTION

Virement policy is developed to ensure that there are sound principles relating to the virement processes followed by the Municipality and also to ensure full compliance with the Municipal Standard Chart of Accounts regulation in effecting those virements.

- 4.1.2 To ensure compliance with legislative Framework including MSCOA regulations;
- 4.1.3 This Policy aims to provide guidelines to senior management in the use of virements as a mechanism to provide flexibility with management of their budgets;

- 4.1.5 In addition, it specifically aims to empower senior managers with an efficient financial – and budgetary system to ensure optimum service delivery within the current legislative framework of the MFMA and the Municipality's system of delegations;
- 4.1.6 To provide a framework within which Umdoni Local Municipality's virement process shall be dealt with;
- 4.1.7 To ensure compliance with legislative Framework including MSCOA regulations.

5. PRESCRIPTIVE/LEGAL FRAMEWORK

- 5.1 The Chief Financial Officer has a statutory duty to ensure that adequate policies and procedures are in place to ensure an effective system of financial control. A Municipality's virements policy and its underlying administrative process within the system of delegations is one of these controls. Section 81(1)(d) of the MFMA states inter alia that "The Chief Financial Officer of a Municipality-...must advise senior managers and other senior officials in the exercise of powers and duties assigned to them in terms of section 78 or delegated to them in terms of section 79..."
- 5.2 It is the responsibility of each Head of each Department (Vote) to which funds are allocated, to plan and conduct assigned operations so as not to expend more funds than budgeted and to ensure that funds are utilised effectively and efficiently.

(b) that the financial and other resources of the Municipality are utilised effectively, efficiently, economically and transparently...”

5.4 MFMA Circular No 51 issued on 19 February 2010 states that each municipality must put in place a Council approved virement policy, which should provide clear guidance to managers of when they may shift funds between items, projects, function, fund, costing, region and municipal standard classification (mSCOA segments).

6. POLICY APPLICATION
